

EXCELLENCE in TECHNICAL TRADING

About Us;

OMEKTRON Engineering Ltd, commenced business in 2006 with establishment in the fields of mechanical and electrical trading, project development, installation and consulting. Among those are automotive parts trading, polyurethane machines trading, projectsfor HVAC systems, new machine or line layouts, new production line installations, process improvement solutions etc.

Our strength is 15 years of professional experience in Mechanics and Electronics. The consistently achieved successes in many hard and important projects culminated in the establishing of a new company.

In 2008 Omektron became AIRPAC Intl. (www.aripac.eu) turkey Distributor.

OMEKTRON has proved that one of the most important indicators of success is customer satisfaction. To ensure the success , we shall continue to insist on providing the highest quality service to all of our customers both at home and abroad. We intend to maintain this success and aim to be recognized.

Customer satisfaction is our first target, and our aim is to be the leader in all the fields we serve.

QUALITY COST DELIVERY SAFETY ENVIRONMENT

Our Vision;

We want to be one of the distinguished Technical Trading companies among the international arena. While accomplishing this task, we want to play the lead role in respecting the environment also.

Our Mission;

To be the trusted solution provider for our customers while they are growing and developing. Understanding the customer need perfectly, to give the best quality service with lowest cost, on time, with safety and respecting the environment.

Our Target;

- ❶ First become one of the most respected Technical Trading and Engineering companies in Turkey, and then become and respected international company.
- ❷ Assure highest level of customer satisfaction and motivation.
- ❸ To be in constant improvement and progress.
